

switch on the future of education
to empower tomorrow's leaders.

sify'

presenting education solutions from sify.

Spinning innovation into education, sify's new bundle of data management service is designed to give the technological edge and set the ball rolling for the evolution of education. Keeping up with the changing world, these services will really change the way people look at your institution and transform your brick 'n' mortar campus to a state-of-the-art virtual space for the knowledge-thirsty generation next.

Established in 1995, sify has been one of the leading players of Enterprise Data Connectivity, Data Center and related services. A pioneer in providing Cloud & SaaS services in the Indian market, sify will stop at nothing to continue innovating and revolutionizing the way we see technology. These solutions for education are sify's way of empowering your institution for nurturing a new generation of informed and reformed leaders to lead New India.
